Additional trustee positions.

A request for additional trustee positions shall be made to the county superintendent by a resolution of the trustees of each elementary district. When a resolution has been received from a majority of the elementary districts without representation on the high school district trustees, the county superintendent shall determine the number of additional trustee positions for the affected high school district in accordance with the following procedure: (1) The taxable valuation of the elementary district which has its trustees placed on the high school trustees shall be divided by the number of positions on the trustees of such elementary district to determine the taxable valuation per trustee position.

If the number of additional trustee positions is less than the previous number of positions, the county superintendent shall designate which present additional positions shall terminate upon his order reestablishing the trustee nominating districts. Section 160. Section 75-6501. **Definition of elementary and high school districts.** As used in this title, except as defined in section 75-7102 for bonding purposes or unless the context clearly indicates otherwise, the term "district" means the territory, regardless of county boundaries, organized under the provisions of this title to provide public educational services under the jurisdiction of the trustees prescribed by this title. High school districts may encompass all or parts of the territory of one (1) or more elementary districts.

"District" defined.

Elementary district.

High school district.

An elementary district is a district organized for the purpose of providing public education for all grades up to and including grade eight (8), and for preschool programs and kindergartens. A high school district is a district organized for the purpose of providing those public educational services authorized by this title for all grades beyond grade eight (8), including post-secondary programs, except those programs administered by community college districts or the Montana university system.

Designation.

Body corporate.

An elementary district shall be known as "District No. ....., ... County" and a high school district, except a high school district where a county high school is operated, shall be known as "High School District No. ....., ... County." Any district shall be a body corporate and, as such body corporate, may sue and be sued, contract and be contracted with, and acquire, hold, use and dispose of real or personal property for school purposes, within the limitations prescribed by law.

Trustees—types of powers and duties.

Unless the context clearly indicates otherwise, the trustees of elementary districts and high school districts shall have the same types of powers, duties, and responsibilities authorized and imposed by the laws of Montana.

HeinOnline -- 1971 vol. I 146 1971

Elementary district operating high school district.

Unless the context clearly indicates otherwise, an elementary district operating a high school in a county that has not been divided into high school districts shall be considered a high school district under this title and the trustees of the elementary district shall be the trustees of the high school district. Such an elementary district operating a high school shall not have the bonding authority of a high school district. However, the elementary district may exercise its bonding authority, in the manner provided by law, for high school purposes.

Bonding authority.

County high school deemed high school district.

As used in this title, unless the context clearly indicates otherwise, a county high school shall be considered a high school district subject to the limitations prescribed by law for a county high school as a result of its being a part of the county government. The boundaries of the high school district for a county high school shall be: (1) the high school district boundaries established by the county high school boundary commission; or

Boundaries defined.

(2) if no such boundaries have been established, the county boundaries, except for any territory located in a joint high school district.

Bonding authority.

Any county high school recognized as a high school district under the provisions of subsection (2) above shall not have a bonding authority. Instead, the county shall exercise its bonding authority in the manner provided in section 75-7133.

Existing boundaries recognized.

Section 161. Section 75-6502. **Confirmation of existing district boundaries.** All districts established under the laws of the State of Montana or the territory of Montana and defined by the boundaries described in the records of each county on the effective date of this act shall be recognized as the districts of the state on such date.

Classifications.

Section 162. Section 75-6503. **District classification.** Each elementary district shall have a classification of: (1) first class, if it has a population of eight thousand (8,000); or

First class.

Second class.

(2) second class, if it has a population of one thousand (1,000) or more but less than eight thousand (8,000); or

Third class.

(3) third class, if it has a population of less than one thousand (1,000).

HeinOnline -- 1971 vol. I 147 1971

Computation of population.

The population of an elementary district shall be determined by the county superintendent on the basis of the best available population information for the district or; if the county superintendent deems it more equitable, he shall multiply by three (3) the approved number of school census children from the last completed census report of the district who are six (6) years of age or older but who have not reached their twenty-first birthday.

Change in population—reclassification.

The county superintendent shall establish the classification of each elementary district in the county on the basis of the population determined for the district and the district classification criteria prescribed in this section. Whenever the population of an elementary district increases or decreases requiring an adjustment of the district classification according to the criteria prescribed in this section, the county superintendent shall declare such district's classification to be changed in accordance with the determined population, except that the classification of an elementary district shall not be changed more than once every five (5) years.

5 years.

Increased number of trustees.

Whenever the county superintendent changes an elementary district's classification with the result that a larger number of trustees is required on the elementary board of trustees, the increased number of trustee positions shall be filled in the manner provided for filling trustee vacancies. Such positions shall be subject to election on the next regular school election day. If the

county superintendent changes an elementary district's classification with the result that a lesser number of trustees is required, the next elementary trustee positions that become vacant under any circumstances shall not be filled until the number of elementary trustee positions has been reduced to the number required by law.

Adjustment in number of trustee positions.

The classification of a high school district shall be the same as the classification of the elementary district where the high school building is located. Whenever the classification of such elementary district is changed, the classification of a high school district shall be changed accordingly, and the county superintendent shall adjust the number of additional high school district trustee positions in accordance with the method prescribed in section 75-5905 for the determination of the number of additional trustee positions required for a high school district. An

When the number of positions is decreased, the next additional high school trustee positions that become vacant under any circumstances shall not be filled until the number of trustee positions has been reduced to the number required by law.

Decrease.

Section 163. Section 75-6504. **Permanent record of district boundaries.** The board of county commissioners shall maintain a permanent record which plainly and definitely describes the boundaries of each district within the county. The county superintendent shall keep a transcript of the record in his office and shall be responsible for keeping the record current.

Permanent boundary records.

If the county superintendent determines that the boundaries of any elementary district or high school district are in conflict or are incorrectly described, he shall change, harmonize, and describe them accurately, and he shall make a report of such boundary adjustments to the board of county commissioners. When the board of the county commissioners approves a district boundary report submitted by the county superintendent, such boundaries shall be the legal boundaries and description of the district within the county. Whenever district boundaries are clarified under this section, the county superintendent shall supply the trustees of the district with the legal descriptions of the boundaries of their district.

No change between March 1 and second Monday in August.

(5) After the county superintendent has received the election certification under the provisions of section 75-6423 from the trustees of each district included in a consolidation proposition, he shall determine if the consolidation proposition has been approved in each district. If each district has approved the consolidation proposition, he shall, within ten (10) days after the receipt of the last election certificate, order the consolidation of such districts. If it be for consolidation with the mutual assumption of bonded indebtedness of each elementary district by all districts included in the consolidation order, such order shall specify that all the taxable real and personal property of the consolidated district shall assume the bonded indebtedness of each district. In addition, such order shall specify the number of the consolidated elementary district and shall contain the county superintendent's appointment of the trustees for the consolidated district who shall serve until a successor is elected at the next succeeding regular school election and qualified. Trustees may request change of high school boundaries.

Section 178. Section 75-6519. **Methods of changing high school district boundaries.** The trustees of any high school district, except the trustees of a high school located in a county which has not been divided into high school districts or become a high school district by county high school unification, may request a change of the high school boundaries of their district or county as provided by this section.

Whenever the trustees of a high school district shall pass a resolution requesting the change of their district's boundary or the redivision of the county into high school districts, they shall send such resolution to the county superintendent. When the trustees request a boundary change of their district or a redivision of the county into high school districts, they shall describe the requested boundary change or redivision and give the reasons therefor. (4) creation of a new high school district shall be the formation of a new high school district from the territory presently incorporated in the requesting high school district.

Creation—new high school district.

Whenever the trustees of any high school district request a boundary change or a redivision that would create a joint high school district or, in any way, affect the boundary of an existing joint high school district, they shall send the boundary change resolution to the county superintendent of each county that would be affected by such boundary change.

Section 179. Section 75-6520. **Establishment of high school districts in a county.** The trustees of a high school located in a county, which has not been divided into high school districts or become a high school district by county high school unification, may request the division of the county into a high school district or districts. Trustees may request division of county into high school districts.

Limitation.

Section 180. Section 75-6521. **High school boundary commission and boundary change, division or redivision hearing procedure.** Each county of the state of Montana shall have a high school boundary commission consisting of the board of county commissioners and the county superintendent. Whenever a county superintendent receives a resolution from the trustees of any high school district requesting a boundary change or a request to divide or redivide the county into high school districts, he shall immediately notify the high school boundary commission. The certificate of the county superintendent filed with the high school boundary commission reciting that such notice requirements have been satisfied shall be conclusive.

Considerations.

In considering a request to change high school district boundaries or to divide or redivide the county into high school districts, the high school boundary commission shall give primary consideration to the convenience of the high school pupils of the territory under consideration. Such commission also shall consider the grouping of elementary districts to be encompassed by a high school district or districts, and shall group contiguous elementary districts within a high school district unless obstacles of travel such as mountains, rivers, impractical routes of travel, or distance make such grouping impractical. After the hearing the high school boundary commission may grant or deny any request, made under the provisions of section 75-6519, for a high school district boundary change, but shall order the division of the county into high school districts whenever requested under the provisions of section 75-6520. Section 75-6522. **Approval of high school district boundary when elementary district territory divided by commission.** If the order of a high school boundary commission would divide the territory of any elementary district between two (2) or more high school districts or would divide the territory of a joint elementary district which is located within the county between high school districts, the county superintendent shall, under the provisions of section 75-6406, order the trustees of such elementary district to call an election. The election shall be called and conducted in the manner prescribed in this title for school elections. Section 75-6523. **Counter proposed high school district boundaries by electors and election.** Whenever a high school boundary commission issues an order to change high school district boundary lines, twenty per cent (20%) or more of the electors of any elementary district with territory affected by the high school boundary change who are qualified to vote under the provisions of section 75-6410 may protest the boundaries established by the order of the commission within thirty (30) days after the date of such order. Such protest shall be in the form of a petition addressed to the county superintendent and it shall provide a counter proposition to the new high school boundaries established by the order of the commission for the disposition of the territory of the elementary district for high school districting purposes. The provisions of this section shall not be used in elementary districts that have approved high school boundaries under the provisions of section 75-6522.

An elector who may vote on the proposition shall be qualified to vote under the provisions of section 75-6410. If a majority of the electors voting at the election approve the counter proposition, the high school boundaries described by the counter proposition shall be approved, and the order of the high school boundary commission shall be amended to establish such high school boundaries. Section 75-6912. **Basic county tax and other revenues for county equalization of the elementary district foundation program.** It shall be the duty of the county commissioners of each county to levy an annual basic tax of twenty-five (25) mills on the dollar of the taxable value of all taxable property within the county unless a basic levy of less than twenty-five (25) mills is sufficient to finance the total amount of the foundation programs of all the elementary districts of the county. In order to determine if a lesser levy will be sufficient, the sum of the estimated revenues identified in subsections (1) through (6) below shall be subtracted from the sum of the county elementary transportation obligation and the total of the foundation programs of all elementary districts of the county. If a basic levy of less than twenty-five (25) mills is sufficient to finance the

Section 263. Section 75-6913. **Basic special levy and other revenues for county equalization of high school district foundation program.** It shall be the duty of the county commissioners of each county to levy an annual basic special tax for high schools of fifteen (15) mills on the dollar of the taxable value of all taxable property within the county unless a basic special levy for high schools of less than fifteen (15) mills is sufficient to

finance the total amount of the foundation programs of all the high school districts of the county. In order to determine if a lesser levy will be sufficient, the estimated revenues identified in subsections (1) and (2) below shall be subtracted from the sum of the county's high school tuition obligation and the total of the foundation programs of all high school districts of the county. If a basic special levy for high schools of less than fifteen (15) mills is sufficient to finance the difference determined above, the county commissioners shall fix a basic special levy for high schools of such amount. No high school district within a county levying less than fifteen (15) mills shall receive any distribution of state equalization aid.

Determination of lesser levy.

The proceeds realized from the levy prescribed in this section and the revenues from the following sources shall be used for the equalization of the high school district foundation programs of the county as prescribed in section 75-6914, and a separate accounting shall be kept of these proceeds by the county treasurer in accordance with subsection (1) of section 75-6805: (1) any money remaining at the end of the immediately preceding school fiscal year in the county treasurer's account for deposit of the proceeds from the levy established in this section; and

Section 265. Section 75-6915. **Formulas for apportionment of county equalization monies.** After making such deductions prescribed in section 75-6914, the county superintendent shall apportion the remaining amount of monies available in the basic county tax acount to the several elementary districts of the county and in the basic special tax for high schools account to the several high school districts of the county in proportion to their needs under the foundation program in accordance with the following procedure:

Apportionment based on needs under foundation program.

Procedure.

Elementary schools.

Elementary Schools

(1) Determine the percentage that the sum of interest and income monies plus the county equalization monies available for the support of the foundation programs of the elementary districts in the county is of the total amount of the foundation programs of all such elementary districts.

(2) Determine the percentage that the interest and income monies available to each elementary district (excluding any county equalization monies) is of the amount of the foundation program of each such elementary district.

(3) Elementary districts in which the percentage determined in subsection (2) exceeds the percentage determined in subsection (1) shall not be entitled to an apportionment of the county equalization monies available for the equalization of the elementary district foundation program and shall be excluded from further consideration under this procedure.

(4) After elimination of elementary districts under subsection (3), determine the percentage that the sum of the interest and income monies available to all remaining elementary districts in the county plus the county equalization monies available for the support of the foundation programs of the elementary districts in the county is of the total amount of the foundation programs of all such remaining elementary district.

(5) The difference between the percentage determined in subsection (4) above and the percentage determined

HeinOnline -- 1971 vol. I 218 1971

for such eligible elementary district in subsection (2) above, shall be multiplied by the foundation program amount for each remaining elementary district to determine the portion of the county equalization monies available to each eligible elementary district.

High Schools

High schools.

(6) Determine the percentage that the county equalization monies available for the support of the foundation programs of the high school districts in the county is of the total amount of the foundation programs of all such high school districts.

(7) Multiply the foundation program amount of each high school district by the percentage determined in subsection (6) above to determine the portion of the county equalization monies available to each high school district.

Limitations on exclusion.

No district shall be deprived of its needful share of the county monies apportioned under this section by reason of it being non-accredited. Nor shall any territory situated within a county be excluded from the apportionment of the county equalization monies under this section solely because such territory lies within the boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year shall not be considered in the apportionment procedure prescribed in this section.

Retention of excess monies.

When the total amount of the available county monies for apportionment under this section is greater than the amount of money to be apportioned under the apportionment procedure prescribed by this section, the excess amount of county monies shall be retained by the county to be considered as financing during the ensuing school fiscal year under the requirements of subsection (5) of section 75-6912 or subsection (1) of section 75-6913.

Use of revenues.

The county equalization monies apportioned under these procedures shall constitute the second source of revenue in calculating the financing of the elementary district foundation program and shall constitute the first source of revenue in calculating the financing of the high school district foundation program. The county superintendent shall use the apportionment procedure prescribed in this section in computing the estimated

revenues for the financing of the ensuing year's foundation program for budgeting purposes.

Sources of fund for equalization aid.

Section 266. Section 75-6916. **Definition of and revenue for state equalization aid.** There shall be paid into the earmarked revenue fund, for state equalization aid to public schools of the state, twenty-five per cent (25%) of all monies received from the collection of income taxes under chapter 49 of title 84, R.C.M., 1947, and twenty-five per cent (25%) of all monies received from the collection of corporation license taxes under chapter 15 of title 84, R.C.M., 1947, as provided by section 84-1901, R.C.M., 1947. In addition to these revenues, one-half (½) of the monies received from the treasurer of the United States as the state's share of oil and gas royalties under the act of congress of February 25, 1920 shall be paid into the same earmarked revenue fund.

Section 267. Section 75-6917. **Purpose of state equalization aid and duties of the board of education for distribution.** The monies available for state equalization aid shall be distributed and apportioned to provide an annual minimum operating revenue for the elementary and high schools in each county, exclusive of revenues required for debt service and for the payment of any and all costs and expense incurred in connection with any adult education program, kindergarten, recreation program, school food services program, new buildings, new grounds, and transportation.

In ordering the distribution of state equalization aid, the board of education shall not increase or decrease the state equalization aid distribution to any district on account of any difference which may occur during the school fiscal year between budgeted and actual receipts from any other source of school revenue.

Orders to distribute.

Limitations.

Section 268. Section 75-6918. **Duties of the superintendent of public instruction for state equalization aid distribution.** The superintendent of public instruction shall administer the distribution of the state equalization aid by: (1) establishing each district's annual entitlement to state equalization aid, based on the data reported in the budget for each district that has been duly adopted for the current school fiscal year and verified by the superintendent of public instruction, and by applying such verified data under the provisions of the state equalization aid allocation procedure prescribed in section 75-6919;

Duty to apportion.

Section 269. Section 75-6919. **Formula for state equalization aid apportionment.** The superintendent of public instruction shall apportion the state equalization aid, individually for the elementary districts of a county or the high school districts of a county, in accordance with section 75-6918 and on the basis of the following procedure: (1) Determine the percentage that the total funds available to all counties in the state in support of the foundation program (including the state monies available for state equalization aid) is of the total amount of the foundation programs of all counties;

Procedure for determination.

(2) Determine the percentage that the total funds available in each county in support of the foundation programs in such county (excluding state monies available for state equalization aid) is of the total amount of the foundation programs of all districts of such county;

(3) Counties in which the percentage determined in subsection (2) exceeds the percentage determined in subsection (1) shall not be entitled to an apportionment of the state equalization aid;

(4) After elimination of the counties referred to in subsection (3), determine the percentage that the total monies available to all remaining counties in support of the foundation program (including the state monies available for state equalization aid) is of the total amount of the foundation programs of all such remaining counties;

(5) Each district of each remaining county shall be entitled to an apportionment of the state equalization aid which shall be the difference between the percentage determined in subsection (4) and the percentage determined for such county in subsection (2) multiplied by the foundation program amount for such district.

Reports to county.

The superintendent of public instruction shall supply the county treasurer and the county superintendent with a report of the apportionments of state equalization aid

to the several districts of the county and the state equalization aid shall be apportioned to such districts in accordance with such report.

Section 270. Section 75-6920. **Estimation of state equalization level and state equalization aid for budget purposes.** The apportionment of state equalization aid shall be the third source of revenue in calculating the financing of the elementary district foundation program and it shall be the second source of revenue in calculating the financing of the high school district foundation program. In order to allow for the estimation of the amount of money to be realized from this source of revenue when the county superintendent is estimating the general fund budget revenues, the superintendent of public instruction shall annually estimate a uniform percentage of each district's foundation program which state foundation program revenues and county equalization monies, together, will be capable of financing. Such estimate shall be called the "state equalization level" and shall be based on the best available data and calculated according to the allocation procedure provided in section 75-6919.

Annual estimate of uniform percentage.

"State equalization level."

The superintendent of public instruction shall notify each county superintendent of the state equalization level estimate by the first day of July. The county superintendent shall use such estimated state equalization level in establishing the budget estimate of the financing available for each district's foundation program for the ensuing school fiscal year.

Notice by July 1.

Use.

Section 271. Section 75-6921. **Additional county levy for state deficiency.** If the estimated state equalization level made under the provisions of section 75-6920 is less than one hundred per cent (100%), it shall be the duty of the county commissioners of each county to levy, separately for the elementary districts and the high school districts, additional taxes in such number of mills on the taxable value of all taxable property within the county as shall be required to complete the financing of the foundation programs of all elementary districts or all high school districts of the county.

Duty of county to levy additional taxes.

As provided in section 75-6805, the county treasurer shall keep a separate accounting of the proceeds realized from these mill levies. The county superintendent shall

Duty to apportion. apportion the proceeds of the mill levies to the elementary districts of the county or the high school districts of the county, whichever the case may be, on the following basis:

Procedure for determination. (1) Determine the total amount required from this source of revenue by the several elementary or high school districts of the county.

(2) Determine the total amount of monies available for this source of revenue.

(3) Calculate the percentage the amount determined in subsection (2) is of the amounts determined separately in subsection (1) for all elementary or all high school districts.

(4) Multiply each elementary district or each high school district requirement for this source of revenue by the percentage calculated in subsection (3).

When the total amount of the proceeds realized from these mill levies is greater than the requirements of all the elementary districts or high school districts of the county, whichever the case may be, the excess amount of county monies shall be retained by the county for reduction of the ensuing year's additional county levy for elementary schools or high schools.

Retention of excess monies.

"Additional county levy for state deficiency." The apportionment of county monies under this section shall be known as the "additional county levy for state deficiency" and it shall be the last source of revenue in calculating the financing of the elementary district foundation program and the high school district foundation program.

Computation by second Monday in August. The county superintendent shall compute the budgeted requirement for this source of revenue for each district and for the county, and shall supply the county requirements for the elementary district foundation programs and the high school district foundation programs to the county commissioners on the second Monday of August in accordance with section 75-6717.

Section 272. Section 75-6922. **Permissive levy.** Whenever the trustees of any district shall deem it necessary to adopt a general fund budget in excess of the foundation program amount but not in excess of the maximum general fund budget amount for such district as established by the schedule in section 75-6905, the trustees shall adopt a resolution stating the reasons and purposes for exceed-

Section 75-6923. **Additional levy for general fund and election for authorization to impose.** The trustees of any district may propose to adopt a budget in excess of the general fund budget amount for such district as established by the schedule in section 75-6905 for any of the following purposes: (1) building, altering, repairing or enlarging any schoolhouse of the district; Trustees may propose excess budget. Purposes.

(2) furnishing additional s c h o o l facilities for the district;

Such special election shall be called and conducted in the manner prescribed by this title for school elections. Section 75-6927. **Proration and calculation of foundation program for a joint district.** In joint districts, the foundation program shall be prorated among the counties in which any part of the joint district is located for the purpose of determining the amount of each source of revenue for the foundation program for which each county is obligated. The proration of the joint district foundation program shall be calculated as follows: (1) Divide the joint district foundation program by the ANB of the joint district to determine the per ANB amount of the foundation program.

Calculation.

(2) Determine the ANB for each county's portion of the joint district on the basis of each pupil's resident county. When taken together, the sum of the ANB assigned to all the counties shall equal the total ANB for the joint district.

(3) Multiply the per ANB amount of the foundation program determined in subsection (1) by the ANB for

each county's portion as determined in subsection (2) to determine the portion of the foundation program for each county.

Basis for calculation.

The portion of a joint district foundation program for each county, as determined in subsection (3) of this section, shall be considered as a separate foundation program in such county for the purposes of calculating the various revenues for the foundation program. The interest and income monies available to joint elementary districts shall be considered as prorated to the several counties on the basis of each child's county of residence. After the calculation of the foundation program revenues, the remainder of the general fund revenues shall be calculated in accordance with the provisions for general fund financing.

Unless a transfer of a district from one transportation service area or approved school bus route to another such area or route is approved by the county transportation committee and the superintendent of public instruction, the state transportation reimbursement shall be limited to the reimbursement amount for school bus transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

Limitation on state reimbursement.

Section 293. Section 75-7016. **Determining residence.** When the residence of an eligible transportee is a matter of controversy and is an issue before a board of trustees, a county transportation committee, or the superintendent of public instruction, such residence shall be established on the basis of the general state residence law as provided in section 83-303, R.C.M., 1947. Where any district or county is determined to be responsible for paying tuition for any pupil in accordance with sections 74-6313, 75-6314, and 75-6316, the residence of the pupil for tuition purposes shall be the residence of such pupil for transportation purposes.

instruction, such mileage shall be established on the following basis. (1) The distance in mileage shall be measured by a vehicle equipped with an accurate odometer.

(2) A representative of the applicable district and a parent or guardian of the child to be transported shall be present when the distance is measured;

(3) The measurement shall begin six (6) yards from the family home and ends six (6) yards from the entrance of the school grounds closest to the route; and

Route must be reasonably passable.

(4) The route traversed for the measurement shall be the route designated by the trustees, except that such route shall be reasonably passable during the entire school fiscal year by the vehicle that provides the child's transportation. In determining reasonable passage, a route shall not be disqualified because it is impassable during temporary, extreme weather conditions such as rains, snow, or floods.

Maximum reimbursement—bus mileage rates.

Section 295. Section 75-7018. **Schedule of maximum reimbursement by bus mileage rates.** The following bus mileage rates for school bus transportation constitute the maximum reimbursement to districts for school bus transportation from state and county sources of transportation revenue under the provisions of sections 75-7022 and 75-7023. These rates shall not limit the amount which a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school bus transportation during the ensuing school fiscal year. The operation of any vehicle reimbursed under the rate provisions of this schedule shall be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

Determination.

(1) The rate per bus mile traveled shall be determined in accordance with the following schedule when the number of eligible transportees boarding such school bus on an approved route is not less than seventy-five per cent (75%) of its rated capacity:

(a) twelve cents ($.12) per bus mile for a school bus with a rated capacity of six (6) children or less:

(b) fifteen cents ($.15) per bus mile for a school bus with a rated capacity of not less than seven (7) but not more than eleven (11) children;

HeinOnline -- 1971 vol. I 242 1971

(c) twenty cents ($.20) per bus mile for a school bus with a rated capacity of not less than twelve (12) but not more than thirty (30) children; and

(d) when the rated capacity is more than thirty (30) children, an additional one-half cent ($.005) per bus mile for each additional child in the rated capacity in excess of thirty (30) shall be added to a base rate of twenty cents ($.20) per bus mile.

(2) When the number of eligible transportees boarding a school bus on an approved route is less than seventy-five per cent (75%) of its rated capacity, the rate per bus mile traveled shall be computed as follows:

(a) determine the number of eligible transportees boarding the school bus on such route;

(b) multiply the number determined in subsection (a) by twenty-five per cent (25%) and round-off to the nearest whole number;

(c) add the amount calculated in subsection (b) to the number determined in subsection (a) to determine the adjusted rated capacity for the bus; and

(d) use the adjusted rated capacity determined in subsection (c) as the rated capacity of such bus to determine the rate per bus mile traveled from the rate schedule in subsection (1) above.

Rated capacity defined.

The rated capacity shall be the number of riding positions of a school bus as determined under the policy adopted by the board of education.

Section 296. Section 75-7019. **Schedule of maximum reimbursement for individual transportation including provisions for isolation, room and board, and supervised study programs.** The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of sections 75-7022 and 75-7023. These rates also shall constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall

When the distance from the eligible transportee's residence to his assigned school is:

(a) not less than three (3) miles but less than five (5) miles, the rate shall be thirty cents ($.30) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed sixty-six cents ($.66) for all the eligible transportees of one household;

(b) not less than five (5) miles but less than seven (7) miles, the rate shall be thirty-six cents ($.36) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed eighty-four cents ($.84) for all the eligible transportees of one household.

(c) not less than seven (7) miles but less than twelve (12) miles, the rate shall be forty-eight cents ($.48) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed one dollar and eight cents ($1.08) for all the eligible transportees of one household; or

(d) twelve (12) or more miles, the rate shall be sixty cents ($.60) for one (1) eligible transportee and twelve cents ($.12) for each additional eligible transportee but shall not exceed one dollar and twenty cents ($1.20) for all the eligible transportees of one household.

Private conveyance to school bus route. (2) When the parent or guardian provides the transportation conveyance from the eligible transportee's residence to an approved route of the school bus designated by the trustees for the transportation of such eligible transportee, the per diem rates prescribed in subsection (1) shall be used to determine the reimbursable amount for such transportation on the basis of the distance from

the residence to such bus route. When the distance from the eligible transportee's residence to the approved bus route is not less than one and one-half (1½) miles but less than three (3) miles, the reimbursement rate shall be one-half (½) the rate prescribed in subsection (1) (a) above. No transportation reimbursement shall be paid to a parent or guardian when the distance is less than one and one-half (1½) miles.

(3) Where, due to excessive distances, impassable roads or other special circumstances of isolation, the rates prescribed in subsections (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, his parent or guardian may request an increase in the reimbursement rate. Such a request for increased rates due to isolation shall be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances which exist to justify the increase. Before any increase rate due to isolation can be paid to the requesting parent or guardian, such rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the county transportation committee and the superintendent of public instruction, the trustees shall pay such increased rate due to isolation. The board of education shall promulgate a schedule that allows varying percentage increases of the per-day individual transportation rates prescribed in subsections (1) and (2) in relation to the degree of isolation, except that such increases shall not exceed one hundred per cent (100%).

The per diem rate for room and board shall be one dollar and fifty cents ($1.50) for one eligible transportee, sixty cents ($.60) for a second eligible transportee of the same house-

Before fourth Monday in July—computation of revenue.

budget. Before the fourth Monday of July and in accordance with section 75-6712, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis: (1) The "schedule amount" of the preliminary budget expenditures that is derived from the rate schedules in sections 75-7018 and 75-7019 shall be determined by adding the following amounts:

Basis. "Schedule amount" determination.

(a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district. To determine the maximum reimbursable expenditure, multiply the applicable rate per bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by such district; plus

(b) the total of all individual transportation per diem reimbursement rates for such district as determined from the contracts submitted by the district multiplied by the number of pupil instruction days scheduled for the ensuing school attendance year; plus.

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted on the preliminary budget for the contingency amount permitted in section 75-7020, except if such amount exceeds ten per cent (10%) of the total of subsections (a), (b), and (c) or one hundred dollars ($100) whichever is larger, the contingency amount on the preliminary budget shall be reduced to such limitation amount and used in this determination of the schedule amount.

One-third used to determine available revenue.

(2) The schedule amount determined in subsection (1) or the total preliminary transportation fund budget, whichever is smaller, shall be divided by three (3) and the resulting one-third (1/3) amount shall be used to determine the available state and county revenue to be budgeted on the following basis:

(a) the resulting one-third (1/3) amount shall be the budgeted state transportation reimbursement except that the state transportation reimbursement for the trans-

portation of special education pupils under the provisions of section 75-7815 shall be two-thirds of the schedule amount attributed to the transportation of special education pupils;

(b) the resulting one-third (1/3) amount except as provided for joint elementary districts in subsection (2) (e) shall be the budgeted county transportation reimbursement for elementary districts and shall be financed by the basic county tax under the provisions of section 75-6914;

(c) the resulting one-third (1/3) amount multiplied by two shall be the budgeted county transportation reimbursement amount for high school districts financed under the provisions of subsection (5) of this section except as provided for joint high school districts in subsection (2) (e) and except that the county transportation reimbursement for the transportation of special education pupils under the provisions of section 75-7815 shall be one-third (1/3) of the schedule amount attributed to the transportation of special education pupils;

Excess cash—reduction of financing obligation.

(d) when the district has a sufficient amount of cash for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of such district revenue and cash reappropriated shall be used to reduce the county financing obligation in subsections (b) or (c) and, if such county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (a); and

Joint districts—proration.

(e) the county revenue requirement for a joint district, after the application of any district monies under subsection (2) (d) above, shall be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each such county.

Determination of monies for reduction of property tax.

(3) The total of the monies available for the reduction of property tax on the district for the transportation fund shall be determined by totaling:

(a) anticipated federal monies received under the provisions of Title I of Public Law 81-874 or other anticipated federal monies received in lieu of such federal act; plus

HeinOnline -- 1971 vol. I 249 1971

(b) anticipated payments from other districts for providing school bus transportation services for such district; plus

(c) anticipated payments from a parent or guardian for providing school bus transportation services for his child, plus

(d) anticipated interest to be earned by the investment of transportation fund cash in accordance with the provisions of subsection (4) of section 75-6806; plus

(e) any other revenue anticipated by the trustees to be earned during the ensuing school fiscal year which may be used to finance the transportation fund; plus

(f) any cash available for reappropriation as determined by subtracting the amount of the end-of-the-year cash balance earmarked as the transportation fund cash reserve for the ensuing school fiscal year by the trustees from the end-of-the-year cash balance in the transportation fund. Such cash reserve shall not be more than twenty per cent (20%) of the final transportation fund budget for the ensuing school fiscal year and shall be for the purpose of paying transportation fund warrants issued by the district under the final transportation fund budget.

Limitation on cash reserve—20% of final budget.

Computation of district levy.

(4) The district levy requirement for each district's transportation fund shall be computed by:

(a) subtracting the schedule amount calculated in subsection (1) from the total preliminary transportation budget amount and, for an elementary district, adding such difference to the district obligation to finance one-third (1/3) of the schedule amount as determined in subsection (2); and

(b) subtracting the amount of monies available to reduce the property tax on the district, as determined in subsection (3), from the amount determined in subsection (4) (a), above.

County levy requirement.

(5) The county levy requirement for the financing of the county transportation reimbursement to high school districts shall be computed by adding all such requirements for all the high school districts of the county, including the county's obligation for reimbursements in joint high school districts.

HeinOnline -- 1971 vol. I 250 1971

(6) The transportation fund levy requirements determined in subsection (4) for each district and in subsection (5) for the county shall be reported to the county commissioners on the second Monday of August by the county superintendent as the transportation fund levy requirements for the district and for the county, and such levies shall be made by the county commissioners in accordance with section 75-6717.

The state transportation reimbursement shall not exceed one-third (1/3) of the reimbursement amounts established in such sections or one-third (⅓) of the district's transportation fund budget, whichever is smaller, and shall be computed on the basis of the number of days the transportation services were actually rendered. An Act to Repeal the Taxpayer Qualification of Electors Voting at School Elections for Issuing School District Bonds, Additional Levy for General Fund, Consolidation or Annexation with Assumption of Bonded Indebtedness, and Building Reserve Fund Authorization; to Repeal the Taxpayer Qualification of Petitioners for Elementary District Territory Transfer; Amending Sections 75-6410, 75-6412, 75-6414, 75-6509, 75-6516, 75-6923, 75-7112, 75-7113, 75-7114, 75-7117, 75-7134, and 75-7205, R.C.M. 1947; Repealing Section 75-6411, R.C.M. 1947; and Providing an Effective Date.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. **Legislative policy and purpose.** Section 2 of article IX of the Montana constitution provides that in order to entitle a person to vote upon a question which may be submitted to a vote of the people or electors, if the question concerns thte creation of any levy, debt or liability, he must, in addition to possessing other qualifications, be a taxpayer whose name appears on the last preceding completed assessment roll. Recent decisions of the Supreme Court of the United States hold that similar provisions in the constitutions and statutes of other states are in conflict with the equal protection clause of the fourteenth amendment to the Constitution of the United States. The ability of the school districts to provide funds needed for essential governmental purposes depends in substantial part upon their ability to create valid levies, debts and liabilities and, when the same are required by law or the constitution to be submitted to a vote of the people or electors, to record and canvass such vote in such manner as to determine finally and conclusively whether or not the levy, debt or liability has been approved by the required majority vote of the electors

Be it enacted by the Legislative Assembly of the State of Montana:

Interstate compact on mental health.

Section 1. The interstate compact on mental health as contained herein is hereby enacted into law and entered into by this state with all other jurisdiction legally joining therein in the form substantially as follows:

The contracting states solemnly agree, that:

the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Need.

Purposes of compact.

Article II. As used in this compact:

Factors defined. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Aftercare or supervision.

Article IV. (a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive aftercare or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that aftercare in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such aftercare in said receiving state, and such investigation shall be made with all reasonable speed. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. Section 87-109, R.C.M. 1947, is amended to read as follows: Amending clause.

"87-109. **Contributions.** (a) **Payment.** (1) Contributions shall accrue and become payable by each employer for each calendar year in which he is subject to this act, with respect to wages, as defined in section 87-149 (c), paid for employment (as defined in this act) occuring during such calendar year. Such contributions shall become due and be paid by each employer to the commission for the fund in accordance with such regulations as the commission may prescribe and shall not be deducted, in whole or in part, from the wages of individuals in his employ. (2) In the payment of any contributions, a fractional part of a cent shall be disregarded unless it amounts to one-half cent (½¢) or more, in which case it shall be increased to one cent (1¢).

(b) Rate of contribution. Rate.

(1) Each employer shall pay contributions at the rate of three and one-tenth per centum (3.1%) of wages, as defined in section 87-149 (c) paid by him with respect to such employment, except as provided in subsection (c) of this section. 3.1% of wages.

Nonprofit organizations defined in section 87-148 (j) (7) may elect to make payments in lieu of contributions; the state and its political subdivisions specifically covered by this act and those electing coverage shall make payments in lieu of contributions. Payments in lieu of contributions.

(2) Employers required or electing to make payments in lieu of contributions shall pay into the fund an amount equivalent to the full amount of regular benefits plus one-half (½) of the amount of extended benefits paid to individuals based on wages paid by such employing unit. If benefits paid an individual are based on wages paid by both such employer and one (1) or more other employers, the amount payable by such employer to the fund shall bear the same ratio to total benefits paid to the individual as the base period wages paid to the individual by such employer bear to the total amount of base period wages paid to the individual by all his base period employers. Computation of payments. Ratio where more than one employer.

HeinOnline -- 1971 vol. I 613 1971

If the base period wages of an individual include wages from more than one (1) such employer, the amount to be paid into the fund with respect to the benefits paid to such individual shall be prorated among the liable employers in proportion to the wages paid to such individual by each such employer during the base period. The amount of payment required from such employers shall be ascertained by the commission quarterly and shall become due and payable by such employer quarterly as directed in this act. Penalty and interest for delinquency shall be assessed such employers as specified in section 87-135.

Prorated.

Quarterly payments.

Penalty and interest.

(3) After December 31, 1971, any nonprofit organizations as defined in section 87-148 (j) (7) electing to become liable for payments in lieu of contributions for a period of not less than one (1) year must file with the commission a written notice of its election not later than thirty (30) days immediately following the date of the determination of subjectivity to this act. This election shall not be terminable by the organization for that and the next year. If the nonprofit organization is delinquent in making payments in lieu of contributions, the commission may terminate the election to make payments in lieu of contributions as of the beginning of the next taxable year, and such termination shall be effective for that and the next taxable year.

Nonprofit organization must file notice of election to make payments not later than 30 days.

(4) Payments in lieu of contributions by the state and its political subdivisions shall be an amount equivalent to the amount of benefits paid to individuals based on wages paid by the state and its political subdivisions. The amount of payments shall be paid in such manner as the commission may prescribe.

Computation of payments by state and political subdivisions.

Determination of benefits.

(c) Experience rating.

The commission shall for each calendar year, classify employers in accordance with their actual contributions and unemployment experience and shall determine for each employer the rate of contributions which shall apply to him throughout the calendar year in order to reflect said experience and classification. The commission shall apply such form of classification or experience rating system which is best calculated to rate individually and most equitably the employment for each employer and to encourage the stabilization of employment.

Commission shall classify employers.

Determine rate of contributions.

HeinOnline -- 1971 vol. I 614 1971

In making such classification, the commission shall take account, each to an equal extent, of the following factors relating to the unemployment hazard shown by each employer on the basis of (1) average annual net percentage declines in *total* payrolls for the last three (3) years prior to computation date; (2) number of years the employer has paid contributions; and (3) chargebacks to the individual employer account upon the last employer basis. The computation date is hereby fixed as of the close of business on June 30 of the preceding calendar year.

Factors to be considered.

Computation date—June 30 of preceding year.

The rates for the *first* calendar quarter of calendar year *1972* and thereafter, except as hereinafter provided, shall be so fixed that they would, if applied to all employers *(except those employers making payments in lieu of contributions)* and their total taxable annual payrolls for the preceding calendar year, have yielded total paid contributions equaling approximately one and *five-tenths* per centum *(1.5%)* of the total of all such payrolls.

Rates—first calendar quarter of 1972.

The commission shall determine the contribution rate applicable to each employer for any calendar year subject to the following limitations:

Determination by commission.

"60-131.2. **Commission order — criteria.** The commission shall make an order providing for the unit operation of a pool or pools or part thereof if it determines, based on evidence presented at such hearing, that:

(2) The value of the estimated additional recovery of oil or gas less royalties *or, as to gas pools only, the value of the economies to be affected* exceeds the estimated additional cost incident to conducting such operations; and

(3) The full areal extent of such pool or pools or part thereof has been reasonably defined and determined by drilling operations."

Amending clause.

Section 3. Section 60-131.3, R.C.M., 1947, is amended to read as follows:

Statement of purpose.

(3) A plan for allocating to each tract in the unit area its fair share of the oil and gas produced from the unit area and not required or consumed in the conduct of the operation of the unit area or unavoidably lost. No such plan shall be approved by the commission until the commission has considered the relative value that such share of production bears to the relative value of all of the separately owned tracts in the unit area, exclusive of physical equipment utilized in unit operations. In so considering such relative value, the commission shall weigh the economic value of the gas to all persons affected as compared to the economic value of the oil to all persons affected.

Gas fields.

(b) In the case of a field producing only gas, the recovery shall be from one hundred percent (100%) of such owners' share of production.

Conduct of unit operations.

(6) A provision for the supervision and conduct of the unit operations, in respect to which each owner shall have a vote with a value corresponding to the percentage of the costs of unit operations chargeable against the interest of such owner.

Challenge of unit operator.

(7) A provision whereby the unit operator, after having operated for a minimum period of two years, can be challenged by any other owner in the unit, and such challenging owner may succeed to the unit operations upon a showing that (a) he can operate more efficiently and economically than the present operator; (b) he is qualified and financially responsible; (c) a majority of the other owners, both in number and in percentage and exclusive of the challenged operator, approved such challenging owner becoming unit operator; and (d) the challenged operator does not initiate the conditions of operations of the challenging owner within sixty (60) days of the challenged operator's receipt of such conditions of operations.

an order of the commission made *prior* to the effective date of this amendment to Title 60, chapter 1, Revised Codes of Montana. Such order, in providing for the allocation of unit production, shall first treat the unit area previously established as a single tract, and the portion of the unit production so allocated thereto shall then be allocated among the tracts included in such previously established unit area in the same proportions as those specified in the previous order. Any new owner whose interest by such order is added to the unit area and who becomes liable for his proportionate share of the costs of unit operations will not be liable for any unit operating costs incurred prior to such person's entry in the unit. At the time such interest is included in the unit, an equipment inventory will be made in order to charge such newly committed interest with its proportionate share of capital investment at its then value. Such lien may be perfected and enforced in the same manner as provided in Title 45, chapter 5, Revised Codes of Montana, 1947, as amended. *Upon demand by any owner of working interest in any tract to which gas has been allocated, the unit operator shall deliver such allocated share of gas to the owner in kind; but the operator and the other owners of interest shall not be required to bear the cost of providing additional facilities for the delivery of such gas.*"

HeinOnline -- 1971 vol. I 693 1971

Be it enacted by the Legislative Assembly of the State of Montana:

Declaration.

Section 1. **Legislative policy and purpose.** Section 2 of article IX of the Montana constitution provides that in order to entitle a person to vote upon a question which may be submitted to a vote of the people or electors, if the question concerns the creation of any levy, debt or liability, he must, in addition to possessing other qualifications, be a taxpayer whose name appears on the last preceding completed assessment roll. Recent decisions of the supreme court of the United States hold that similar provisions in the constitutions and statutes of other states are in conflict with the equal protection clause of the fourteenth amendment to the constitution of the United States. The ability of the state and of its counties, cities, towns and school districts and other political subdivisions to provide funds needed for essential governmental purposes depends in substantial part upon their ability to create valid debts and liabilities and, when the same are required by law or the constitution to be submitted to a vote of the people or electors, to record and canvass such vote in such manner as to determine finally and conclusively whether or not the debt or liability has been approved by the required majority vote of the electors qualified and offering to vote thereon. It is therefore the policy and purpose of this law to eliminate all statutory electors' qualifications for voting on the creation of any public debt or liability except such qualifications as are validly by or pursuant to the Montana constitution; to provide an adequate procedure for hearing and determination of any issue raised with reference to such qualifications; and to limit to a reasonable time the period within which such issues may be raised.
